SUMMARY

Web design graduate seeking job in the tech field. Technically oriented, but flexible and diverse with employment experience in many areas ranging from manufacturing, retail, web design, food service and tutoring. Highly motivated and hard working.

WORK EXPERIENCE

Walt Disney World

January 2016 — January 2017
February 2015 — August 2015

Quick-Service Food and Beverage

Worked at the busiest restaurant in the world, Cosmic Ray's. Held a position of leadership as a stocker, which gave me the authority to oversee outdoor food locations at Epcot and Disney's Typhoon Lagoon. Had the responsibility of counting money from tills at the end of the night at Epcot.

Staples, Inc.

August 2015 — December 2015
July 2014 — January 2015

EasyTech(SM) Associate

Sold computer hardware and software, advised customers on tech related issues, provided customer service and fixed customers' hardware and software as required.

Two Tonys Taverna Grille

June 2011 — December 2015

Web Developer

Created and maintained a website which can be found at <http://www.twotonyspringlake.com>. Utilized Joomla which allows the client to independently edit and maintain their website for themselves.

EDUCATION

Experiential Learning

February 2015 — May 2015

Disney College Program

Learned about peoples' learning styles and how you can present information to people with those specific learning styles.

Web Design

August 2011 — December 2015

Muskegon Community College

Grade Point Average of 3.226

Completed an associate's degree in web design, which includes courses in:

- Adobe Creative Suite
- PHP / SQL / HTML5 / CSS3 / JavaScript
- Microsoft Office (including Access)
- C / C# Programming Languages

Internet/Network Security Technologies

August 2008 — May 2009

Muskegon Career Tech Center

Completed a year long project involving web development activities such as HTML and CSS.

TECHNICAL SKILLS

Moderate knowledge of various distributions of Linux, including Ubuntu.

Proficient in the following languages:

- HTML5 / CSS3 / JavaScript
- Python
- Bash
- MySQL / NoSQL

PERSONAL PROJECTS

- Maze generator (JavaScript / <http://jaredbell.name/mazegen/>)
- Credit card number generator (JavaScript / <http://jaredbell.name/ccgen/>)
- Canvas flashcard creator (JavaScript + HTML5 / <http://jaredbell.name/flashcards/>)
- URL shortener (Python + NoSQL)
- Created a website from scratch (Python + Flask / <http://www.jaredbell.name/>)
